Profile

Full-stack web developer proficient in building end-to-end web solutions. Expertise in crafting responsive UIs with React and Next.js, and developing robust backend services using NestJS, Express, and RESTful APIs.

Education

bachelor at communication and electronic engineering
Homs university, homs

Sep 2020 - Sep 2025

Employment

BackEnd developer

Feb 2026 - Jun 2026

IDEA training centre, Hama,Salamia

- Developed and maintained server-side applications using Node.js and Express.js to ensure seamless data flow and API integration.
- Implemented RESTful APIs and integrated third-party services to enhance backend functionality.
- Collaborated with front-end developers to design and implement robust, scalable, and secure backend solutions.
- Conducted code reviews, debugging, and unit testing to maintain code quality and reduce system downtime.
- Optimized database queries and designed efficient schemas in MySQL and MongoDB to improve application performance and scalability.

Full stack Internships

Mar 2026 - Present

Bytes4future at Agha Khan Foundation, Damascus

- Developed and tested full stack web applications using JavaScript, TypeScript, Node.js, Nest.js and React.js to deliver functional and user-friendly solutions during the internship.
- Participated in backend API development and integration using Node.js and Express to support front-end functionalities.
- Assisted in database management and optimization for improved application performance using MongoDB and MySQL.
- Collaborated with the development team to troubleshoot and debug both client-side and server-side code.
